(about me)

Hi ! I'm Clara, but you can call me eko0 !
I was born in March 2008 and I'm passionate about UI/UX and graphic design. I like turning ideas into visual experiences. I'm currently learning 3D design with Blender to expand my creative skills and bring more depth and emotion to my work. My goal is to blend design, storytelling, and technology to create experiences that are both intuitive and inspiring.
